About Parks & Trails Council of Minnesota

Our mission: to acquire, protect and enhance critical lands for the public's use and benefit.

We value and promote:

- Sustainable, long-term statewide land stewardship and conservation;
- Outdoor recreation for its educational, health and community benefits;
- Openness, inclusiveness, collaboration and volunteerism;
- Service as an independent, honest and forthright voice for parks and trails; and
- Decisions informed by the best available science and data

What we've done: Fueled by membership support, the Parks & Trails Council has been instrumental in adding more than 10,000 acres of land valued at \$31 million to key areas within the state's network of parks and trails. We are the state's most powerful voice for parks and trails thanks to our working relationships with grassroots community groups, legislators and local governments from throughout the state.
